## **Public Safety Priority for Hansberger**

Today the Board of Supervisors approved Supervisor Dennis Hansberger's request for the acquisition of two permanent road easements at the intersection of Reche Road and State Highway 247 in Landers to create safe turning lanes. Due to increased traffic, the lack of turning lanes has made the intersection dangerous.

"Public safety is always my primary concern, and due to increased traffic, the lack of turning lanes has made this intersection dangerous," said Supervisor Hansberger.

The right-of-way being purchased, for a total cost of \$1,000, is necessary to construct the right hand turn lane for northbound traffic on State Highway 247 onto eastbound Reche Road. The project is expected to be completed in Summer 2008.
